

Checksheet
for a Minor in International Agriculture
Academic Programs in the College of Agriculture and Life Sciences

For students graduating in calendar year 2013:

Name _____ Student ID number: _____

The minor in International Agriculture focuses on agricultural issues as they apply to the less developed countries. The courses recommended for the minor deal with problems affecting these countries, such as environmental degradation, competition for resources, malnutrition, and illiteracy, as well as the role of agriculture in finding solutions to alleviate these problems.

The minor in International Agriculture requires the completion of 18 semester hours (all of which must be taken and passed on an A-F basis) distributed as follows:

Core Courses (Minimum of 9 hours)

- _____ Required:
AAEC 3204*: International Agriculture Development and Trade - 3 credits
- _____ CSES 3444: World Crops and Cropping Systems – 3 credits
- _____ Select a minimum of three semester hours from the following:
